SYNTEGON

PROCESSING & PACKAGING

Repair – We face your Challenges.

Technology based services for greater competitiveness.

Minimal downtime and the optimal use of personnel and resources are essential keys to sustainable success in industry. Syntegon creates the conditions for greater productivity, flexibility and efficiency: with technology-based services over the entire life cycle of a machine – reliably, worldwide, around the clock. Extensive technology and product knowledge as well as industry expertise are the basis for the decisive competitive advantage. To ensure that everything runs smoothly in the future, we support you with preventive maintenance and with repairs to your machines through targeted services.

REPAIR SERVICES

- 100% original manufacturer quality
- Testing and preventive replacement of wear parts
- Complete hardware revisions and software updates
- Incomparable quality at competitive prices
- Repair like new with OEM guarantee

YOUR BENEFITS

- On-site repair with replacement of wear parts, mechanical and electrical assessment
- Removal and installation of spare parts including alignment and commissioning
- Detailed field test in coordination with the customer
- Highest quality through original spare parts

Effective and rapid restoration of production capability.

If an on-site intervention is required, our competent service technicians will do everything that is necessary to fix the problem directly at your location. This is not just about replacing a part. Our goal is to ensure the optimal performance of your machine in the long term. We have tools and diagnostic systems to provide the best possible support in every situation. With extensive experience and ongoing training, our team of experts delivers the highest precision and professional support. This ensures that your systems retain their value.

Fast response time

- Syntegon offers fast and reliable repair services to minimize downtime and restart production as quickly as possible.
- Syntegon ensures that machines are ready for use again as quickly as possible after repairs, thereby minimizing expensive downtime.

Skilled technicians

- The repairs are carried out by highly qualified technicians who have extensive know-how and experience with Syntegon machines.
- With a worldwide service network, Syntegon is able to offer support regardless of the customer's location.

Original spare parts

- Customers receive original Syntegon spare parts that ensure the longevity and efficiency of the machines.
- Syntegon offers clear and transparent pricing with no hidden costs so that customers can plan repair costs precisely.

Comprehensive support

- Syntegon offers comprehensive technical support, including troubleshooting and preventive maintenance recommendations to avoid future issues.
- Syntegon technicians are regularly trained to ensure they are always up to date with the latest technology and can provide the best solution for every problem.
